

BACTIVATE 5

PROGRAM PACK

The Bactivate 5 Program Pack has been scientifically formulated for trees, plants & row crops. The formulation delivers bacteria to the soil, stimulates microbial activity, promotes rapid colonisation, & improves the growth, health & immunity of the tree/plant/crop.

The Program has been designed to deliver the following benefits:

- decrease the use of chemicals and chemical fertilisers,
- improve soil structure, root mass and plant development
- increase the solubilisation of phosphorous and potassium
- improve the immune response of the plant to environmental stresses and pest/disease attacks
- improve yields, decrease inputs and increase your profit

Bactivate 5 Program Pack

The Bactivate 5 Program Pack includes:

- **Bactivate 5**
- **Bactivate Seaweed**
- **Bactivate BioBoost Enhance**

For more detail on each of the products, please refer to the individual product information sheets.

The Bactivate 5 Program Pack has been designed for ease of application; it comes in 3 individual bottles to facilitate mixing with water. It can be stored for up to 6 months from date of delivery. It includes our 5 species of beneficial bacillus bacteria and key complementary products from the Bactivate range.

The Program Pack is available in a variety of sizes: 2Ha, 4 Ha, 20 Ha, 40 Ha, 80 Ha, 200 Ha & 400+ Ha.

Application Guidelines

Bactivate 5, Bactivate Seaweed,
Bactivate BioBoost Enhance

Mix 1L Bactivate 5 with 2.5L Bactivate Seaweed and 2.5L Bactivate BioBoost Enhance into 150L water and apply to 1 Ha. For trees, fruit trees, vines, hemp & potatoes, apply up to twice per annum. For vegetable crops, apply once per crop rotation.
